Teaching.

DRAMA INSTRUCTOR

Foote Theatre School | 2018-2019

Metro Continuing Education | 2018-2019

Grindstone Theatre Education | 2019-2021

City Arts Centre | Feb 2020

- Create fun, engaging curriculum for camps and classes (ranging from 1 full week to 10 week terms) for theatre students aged 4 to 16 years old
- Create a playful, safe, dynamic environments for students to learn and grow
- Teach collaboration throughout the curriculum to help students put on a showcase at the end of the class to show off their new skills
- Integrate student goals with my own vision for the curriculum in order to make sure students are learning what they want to learn while also ensuring the students have a grounded, solid foundation to build from
- My philosophy for teaching drama (regardless of age group) is that no matter where you start from, no matter what age, the basics are the same. If you have a well-rounded, solid foundation to build from, the next steps are to teach performers how to create original work. Stories exist to be told, not replicated! I believe in teaching performers how to make original work, and how to make existing work their own.
